

## 1113 Vidar Short Sleeve Crew Neck

### Keeps the body cool & dry

Thin, lightweight functional bodywear for any kind of physical activity in warm indoor or outdoor conditions. THERMOCOOL® fiber provides duo-regulation designed to keep wearers in their comfort zone across different temperature changes and activity levels. The fabric helps you to be warm when you feel cold and cool when you feel hot. This base layer is designed to be worn next to the skin, either underneath outer layers or by itself.

### fiber technology

The specially-engineered polyester fiber THERMOCOOL® is designed to work with the body's natural thermal capabilities through smart fiber cross-sections. It rapidly evaporates moisture thanks to its unique fiber mix. The fibers are designed to provide added evaporative surface, outstanding moisture transport and allow enhanced air circulation focusing energy on the evaporation process.

### hygiene and freshness technology

The **SILVERPLUS®** finish protects textiles from unpleasant body odors. This biocidal product for hygiene and freshness uses the power of silver to bring long-lasting antibacterial properties to garments. The technology is eco-friendly and conforms to **bluesign®** and **OEKO-TEX® Standard 100**.

### UV protection

This clothing is designed to offer protection against solar ultraviolet radiation exposure (UVA and UVB). The UPF measured is >15, meaning it offers good UV protection as more than 98% of the harmful UV-radiation is blocked by the fabric.

**Note:** Only covered parts of the body are protected. Take care of protection for other parts of the body (e.g. by wearing a hat and/or using sun milk).

### care instructions

no fabric softener | wash dark colors separately

### style information

style number: 1113  
style name: Vidar Short Sleeve Crew Neck  
style group: Vidar Key Line  
style sizes: XS - XXXL  
color codes: 1000 Black, 1300 Dark Grey, 2000 White
