

## 1262 Modi Long Pant (with fly)

### keeps the body warm & dry

Warm functional bodywear for any kind of physical activity in fair and cold conditions. The double layer knit construction has dual performance: Polyester on the inside provides outstanding moisture transportation and a soft surface next to the skin. Merino Wool on the outside provides excellent insulation and durability, keeping the body warm & dry. This base layer is designed to be worn next to the skin, either beneath outer layers or by itself.

### fibre technology

Polyester on the inside provides excellent thermoregulation and comfort. Polyester base layers wick moisture away from the skin, breathe efficiently and dry fast to provide a foundation of comfort and temperature regulation for any activity.

Merino Wool on the outside provides highest levels of comfort and performance. The ultrafine, less than 19.5-micron fibre is exceptionally soft against the skin, naturally odour resistant and machine washable.

### hygiene and freshness technology

The SILVERPLUS® finish protects textiles from unpleasant body odours. This biocidal product for hygiene and freshness uses the power of silver to bring long-lasting antibacterial properties to garments. The technology is eco-friendly and conforms to bluesign® and OEKO-TEX® Standard 100.

### UV protection according to EN 13758-2 :2003+A1:2006

The warm iso base layer collection has been designed according to the PPE Directive 89/686/EEC and specifically to the European Standards EN ISO 13688:2013 (General Requirements for protective clothing) and EN 13758-2 :2003+A1:2006 (UV protection).

The clothing is designed to offer protection against solar ultraviolet radiation exposure (UVA and UVB). The UPF measured is >50. This means that more than 98% of the harmful UV-radiation is blocked by the fabric. The clothing herewith offers the highest level of protection.

**Note:** Only covered parts of the body are protected. Take care of protection for other parts of the body (e.g. by wearing a hat and/or using sun milk).

### care instructions

no fabric softener | wash dark colours separately

### style information

style number: 1262  
style name: Modi Long Pant Fly-Up  
style group: Modi Key Line  
style sizes: XS - XXXL  
colour codes: 1000 Black

### material specifications

fabric: 50% Polyester | 50% Merino Wool  
structure: double-single knit  
weight: 230 g/m<sup>2</sup>

### product features

- ✓ Ergonomic and comfortable fit
- ✓ Silver ion based antimicrobial finish avoids body odour and ensures freshness
- ✓ UPF 50+ sun protection capacity
- ✓ Flatlock seams form smooth surface
- ✓ Soft, elastic logo waistband
- ✓ Horizontal fly opening
